

Your success is Our Success

About Us

Experience

SKG Infosolutions has been providing technology and consultancy services and executing projects on a turn-key basis for a wide range of customers world-wide

Quality

We pride ourselves on providing services that full fill the four E's of quality: Elegant, Efficient, Ethical and Economical

Expertise

Our expertise spans a wide spectrum of services, ranging from ASP.NET, PHP, iOS Apps, Android Apps, Windows Phone Apps, MySQL, MS SQL Server, BI Reports, Social Media Apps and much more

Timely

Our team is dedicated to working within designated time parameters and in providing consistent, on-time delivery of the perfect and complete solution

Our Commitment

Superior Solutions for Success is our Corporate Mantra

Over the years, we have been developing, expanding and maintaining a powerful and loyal customer base. This growing population of customers thrives, grows and benefits from our experience and expertise. To this end, we constantly refresh and renew our skill-sets, expand our own horizons by recruiting and retaining the best talent available

We are committed to delivering solutions with a back-story of creative, innovative and stable engineering to suit each and every customer's specific need, budget and level of complexity. We furnish top-quality, performance-oriented solutions which can be seamlessly integrated into existing applications as well. We provide scalable, adaptable, portable suites of solutions.

We're proud of creating a versatile, valuable body of work that combines the best of design with spearhead technology. Every project is uniquely built from the ground up and this is part of our commitment to our clients.

Services

We Value Your Business!

As more and more businesses join the digital age, their need to remain visible, relevant and in tune with current technology becomes critical to their survival. We understand the eco-system and can partner you in leveraging the power of technology and applications. Our mission is to blend the needs of your target audience with your own purpose/vision.

Today we are recognized as a preferred and trusted provider of web based solutions and applications.

Our goal is to translate your vision into reality. We aim to create world-class, feature rich, customizable websites and applications that combine superior functionality with elegance and originality. Unique design, usability, bespoke features, sturdy mechanics and architecture, sustainable and customizable features, security and confidentiality plus 24x7 support are what we offer to all our clients regardless of the size and nature of their business. We can take your business to the next level. Talk to us. We'll grow with you.

Our Team

Your Success is Our Success

We combine utmost professionalism with innovation and beyond-the-box thinking to generate ideas that match customers' goals and objectives. Our team consists of people with breakthrough talent and years of unmatched expertise in a variety of cutting-edge and traditional technology platforms. When you hire us, you bring on board a crack team of powerhouse specialists whose business is to convert your concept into concrete architecture.

Our MD, Sajjan Kumar Gupta has an illustrious career that spans several decades spent in achieving significant and profitable milestones. He has extensive experience in business strategy and development, management and developing and sustaining successful start-ups in a wide range of fields.

As a team combining rainbow aspects of experience and expertise, our passion is to partner our clients in maximizing their profits, ramping up their business contacts, creating visibility and sustainability, grabbing the next Big Idea in technology as it happens and gaining a reputation for reliability and trustworthiness.
